

KRISHNAPRIYA VENKATAKRISHNAN

Frontend Developer

I began my career as a T24 developer at Temenos India Private Limited, a banking software company, where I sharpened my leadership and collaboration skills, working closely with cross-functional teams to consistently deliver projects ahead of schedule. After relocating to Stockholm in 2023, I immersed myself in new cultures and took time to reassess my career aspirations. This journey led me to focus on front-end development, with the goal of becoming a full-stack developer. I have since built a strong foundation in HTML, CSS, JavaScript, and React, and I am eager to apply my problem-solving abilities and creativity to new challenges.

EDUCATION

SELF STUDY

2023- Present

Completed courses in Front-End Development with a focus on React, CSS, and JavaScript through Scrimba.

Bachelor’s degree in Computer Science Engineering

2013- 2017

Thiagarajar College of Engineering,

PROFESSIONAL HISTORY

DECEMBER 2016 – DECEMBER 2022

TEMENOS

Chennai, India

T24 Associate Lead Product Engineer

July 2022- December 2022

- In addition to the responsibilities held as a T24 Specialist, I led technical initiatives, coordinating with stakeholders to ensure timely delivery and alignment with client expectations.
- Conducted risk assessments and developed mitigation strategies to address potential challenges during project execution.

T24 Specialist

August 2021- June 2022

- Provided client support and was involved in the requirement gathering meetings and performed client demos.
- Actively involved in analysis, delivery, and preparation of technical design documents.
- Mentored peer developers during the development.
- Developed the solution and provided extensive support during testing and post rollout.

T24 Software developer

January 2020- July 2021

- Involved in analysis, delivery, and preparation of technical design documents.
- Developed the solution and was involved in product testing.

December 2016- December 2019

- Developed the solution and was involved in product testing with the help of requirements and technical documents provided.

CAREER TRANSITION

2023- Present

- Relocated to Stockholm and travelled across Bali, Iceland, Switzerland, Bangkok, Paris, and Milan, gaining diverse cultural insights.
- Took a sabbatical to reflect on and redefine career goals, ultimately deciding to transition into full-stack engineering with a focus on front-end development.
- Engaged in rigorous self-study in front-end technologies, including HTML, CSS, JavaScript, and React, to build a strong foundation for future roles.
