

Krishnapriya Venkatakrishnan

FULL-STACK WEB DEVELOPER

krishnapriyavenkatakrisnan@gmail.com +46 736595250 [Portfolio](#) [GitHub](#) [LinkedIn](#)

Full-stack web developer with six years of software engineering experience in fintech, including leadership in enterprise banking systems. Focused on building scalable, high-performance web applications with modern technologies and clean code. Experienced in React, Next.js, TypeScript, and MongoDB, with a proven track record of collaborating across teams, mentoring developers, and delivering production-ready solutions on time.

TECHNICAL SKILLS

FRONTEND: React | Next.js | TypeScript | JavaScript | Tailwind CSS | Material UI

BACKEND & DB: Node.js | Supabase | Firebase | MongoDB

TOOLS & DEPLOYMENT: Figma | Git | GitHub | Vercel | OpenAI APIs

EXPERIENCE

Full-Stack Developer Intern

Ezichoice AB – Stockholm, Sweden | Aug 2025 – Jan 2026

Built scalable full-stack features with React, Next.js, TypeScript, Supabase, developed responsive UI components, contributed to architecture design, optimized performance, and collaborated in an agile team to deliver production-ready solutions.

Associate Lead Product Engineer

Temenos India Private Limited – Chennai, India | Dec 2016 – Dec 2022

Delivered enterprise banking solutions, led technical initiatives, coordinated with stakeholders, prepared technical documentation, mentored developers, and contributed to solution development, client demos, and critical production deployments.

DEVELOPMENT PROJECTS

Dev Overflow

[Demo](#)

Stack Overflow-inspired platform with secure authentication, dynamic routing, search, filters, pagination, OpenAI-powered suggestions, voting, reputation system, community collections, and Arbetsförmedlingen job API integration. Powered by MongoDB, with server actions and API routes. Light/dark/system theme support.

3D Animated Website

[Demo](#)

Interactive 3D portfolio with loading screen, hover-responsive background videos, “world-entry” animated images, bento-style feature cards, smooth tilt interactions, floating navigation with audio, built with React.js, GSAP, TailwindCSS. Focus on fluid animations and immersive user engagement.
